GERLI '93 MEETING Glycolipids: Function and Pathology

Faculty of Medicine, Strasbourg, France, September 3-4, 1993

The aim of this meeting on 'Glycolipids: Function and Pathology' is to gather together, in France, scientists of international renown and young researchers, active in this field, to discuss the involvement of these molecules in cellular biology, in transmission of cellular signals, and in genetic and immunological diseases.

Topics of the symposium:

1. Glycolipids, cellular markers and recognition molecules.
2. Glycolipids, cellular differentiation and signalling.
3. Glycolipids and pathology: cancer and auto-immunity, genetic diseases, neuro-immunological aspects.

Enquiries and registration forms from:

Henri Dreyfus
Clinique Ophtalmologique - Laboratoire Laveran - CHRU
1, Place de l'Hôpital - BP 426
F - 67091 Strasbourg Cedex, France.
Tel: (33) (88) 243313.
Fax: (33) (88) 243314.
